## PEARL SERIES - PIVOT SHOWER SCREENS

G.James' Pearl Series of fully framed, pivot shower screen breaks away from the traditional sliding door style of enclosure. The pivoting door offers easy operation for entry and exit while the stylish, contoured profiles ensure this screen complements today's modern bathroom. Other features include durable, maintenance-free mouldings, grade 'A' safety glass and a wide selection of configurations (see back page).

## DESIGNER SERIES - PIVOT SHOWER SCREENS

Want a shower recess with the latest in design trends? Then select the G.James semi-frameless Designer Series shower screen (see back page for configurations). With minimal use of aluminium framing<sup>1</sup>, attractive hardware and clean lines, you'll have all the bases covered. Self-centering pivot blocks and easy-grip knob provide great functionality and style. The Designer screen also offers you a cost-effective alternative to the frameless shower screen.

<sup>1</sup> The 'Patch Pivot' door configuration has no perimeter framing. Other framing will vary from model to model - please confirm with your G.James representative at time of ordering.

## SIGNATURE SERIES - SLIDING SHOWER SCREENS

The timeless qualities of a G.James Signature Series sliding shower screen will be realised in the years of trouble-free operation this product provides you. The 'in-frame' sliding action of the door panels offer great space saving opportunities for smaller bathrooms or where fixtures may restrict the opening of a pivot door. A heavy duty head stiffener is available for non-standard (width) screens and bath enclosures. See overleaf for our standard models.

825/826 SERIES

## FRAMELESS SHOWER SCREENS

For the ultimate look in style and individuality, G.James can supply and install 'frameless', hinge-action shower screens. This option allows you total design freedom as each enclosure is custom-made to suit your specific requirements. A range of high quality handles, hinges and other fittings are available in powder coated, satin chrome, chrome and polished gold finishes.
