- Furniture

## HOW TO SPECIFY

- Select Glass Name
  - GJ EtchLite
  - GJ EtchLite Plus
  - GJ EtchLite Ultra
- Process (thickness) \*
  - Annealed (4,6,10,12mm)
  - Heat Strengthened (4,6,10,12mm)
  - Toughened (4,6,10,12mm)
  - Laminated (8.38mm-25.52mm)

Contact G.James for assistance

\* Some tones or thicknesses may not be available

## GJ ETCHLITE

G.James EtchLite is a translucent glass with a matt finish to one surface. It transmits the same amount of light as clear glass but diffuses it to provide a soft satin feel.

## PROCESS

EtchLite is clear float glass with one side treated with hydrofluorosilic acid which etches the surface to provide a uniform, fine grain, satin finish over the entire sheet.

## GJ ETCHLITE PLUS

EtchLite Plus incorporates the same acid etched finish as used on EtchLite but on tinted glass. This provides a toned translucent appearance. EtchLite Plus includes Green, Grey and Bronze tones\*\*.

## GJ ETCHLITE ULTRA

EtchLite Ultra is an acid etched finish on ultra clear (Low Iron Glass) which provides a stunning white satin appearance.

\*\* May not be available ex stock.
