GJ MIRRORLITE

It is no secret that we are all fascinated with our own reflection, GJ MirrorLite provides this functional use in bathrooms, ensuites and wardrobes. GJ MirrorLite can also be used to provide light, space and reflection to any interior application. MirrorLite is manufactured using the latest technology and is environmentally friendly containing no copper or lead in the mirror coating.

Options

- Clear Mirrorlite provides a perfectly reflected, true image without any distortion.
- Low-Iron MirrorLite provides a more brilliant reflectance.
- Grey or Bronze tinted MirrorLite is recommended when a subtle look is required.

Safety Glass

In specific applications the building code requires a Grade A safety glass to be used. For these applications MirrorLite can be supplied as either a laminate or safety backed mirror. MirrorLite Laminate can be supplied in clear or a range of colours. MirrorLite Safety Backed is available in Clear, Grey or Bronze tints¹.

Installation

Mirrorlite can be installed in a frame or mounted directly to a wall or door using mechanical fixings or adhesive. Prior to using adhesives please consult with G.James for suitable compatibility with the mirror paint or safety backing. Mirrorlite is not suitable for use in exterior applications.

Cleaning

Some cleaning products may damage the mirror coating. For more detailed instructions on suitable cleaning products and procedures, please contact G.James or visit <https://gjames.com/resources>
